Elementary Education Foundations Curriculum ....... 42 cr
Electives ...........................................0-5 cr
Additional General Education ......................13-18 cr

Purpose
The Elementary Education Foundations Transfer Pathway A.S. offers students a powerful option: the opportunity to complete an Associate of Science degree with course credits that directly transfer to designated Elementary Education bachelor’s degree programs at Minnesota State universities. The curriculum has been specifically designed so that students completing the pathway degree and transferring to one of the seven Minnesota State universities* enter the university with junior-year status. All courses in the Transfer Pathway associate degree will directly transfer and apply to the designated bachelor’s degree programs in a related field.

*Universities within the Minnesota State system include Bemidji State University; Metropolitan State University; Minnesota State University, Mankato; Minnesota State University, Moorhead; Southwest Minnesota State University; St. Cloud State University; and Winona State University.

Note: If you have been arrested, charged or convicted of any criminal offense, you should investigate the impact that the arrest, charge or conviction may have on your chances of employment in the field you intend to study or on your chances to obtain federal, state and other higher education financial aid. Some courses within this program require a criminal background study to successfully complete. Please see the course description section of the catalog for more details. Please refer to the Criminal Background section of the catalog for more information on the criminal background study.
